

# DRYERS VS. TOWELS

The science is clear: single-use paper towels are a more effective and hygienic way to dry your hands after washing.

## PAPER TOWELS **VS.** JET AIR DRYERS

Drying your hands with a paper towel can reduce bacteria on hands by **up to 77%**.

Using a jet air dryer **dispersed 1,300 times** more germ particles than drying with paper towels.

The rubbing process of paper towels **physically removes** bacteria along with moisture.

The inner surfaces of jet air dryers can harbor up to **48 times** more bacteria than a toilet seat.

**Paper towels are the recommended hand-drying method** of the World Health Organization (WHO) “Guidelines on Hand Hygiene in Health Care.”

Jet air dryers can increase the bacteria on fingers by **up to 42%**.

LET US HELP KEEP YOUR BATHROOM CLEAN, SANITIZED AND WELCOMING!

# DRYERS VS. TOWELS

“  
**90%** of people chose paper towels over jet air dryers in the restroom. In fact - given the strong preference for using paper towels, hand hygiene adherence would possibly **decrease** if paper towels are not available in washrooms, according to a review article in the Mayo Clinic Proceedings.
